

OSHA and HIPAA 2016

Just when you think it couldn't get any more fun, it does!

Believe it or not, for the moment, there are no more new regulation! Whew! Nice change! But we will be talking about HIPAA rules are really affecting dentistry and what we need to do to protect ourselves (which is a nice annual update!). And of course it satisfies annual OSHA training requirements.

Trainer: Laney Kay, JD, has been teaching OSHA related topics since 1989, when she began working at her husband's dental practice. She has written many articles on this topic and has taught various forms of this course at all the big dental meetings, plus district meetings, study clubs and in individual offices all over the U.S.

THIS YEAR, there will be a variety of ONLINE CLASSES (posted after February 1st) as well as on-site classes, so there's something for everyone. Check out my website for options! <http://laneykay.com/online-training/>
