

## **SO FUN WHITE SANGRIA**

Makes about a gallon with all the fruit

- 1/2 cup sugar or Splenda (or mix the two)
- 3 bottles of white wine (I usually use 2 pinot grigio and 1 reisling, but whatever you want)
- 1/3 cup of Cointreau, Triple Sec, or Patron Citronge Orange liqueur
- various fruits (pineapple, blackberries, blueberries and peaches are amazing. Strawberries will turn the sangria pink and the strawberries white so they look creepy but it's really good!)

Put everything in a pitcher with a lid, put it in the fridge, and let it sit. It's best if you let it sit overnight or longer. Serve over ice and include lots of the soaked fruit and a spoon to fish it out. It's awesome!!
