Snacks and water will be available, lunch is on your own.

When you order the classes, you will be given links to written materials for each class. The written materials include checklists and other documents you may find useful, (Examples: a HIPAA Risk Assessment, various plans, such as an exposure control plan, needle safety plan, hazard communication plan, emergency plan, etc.) If you have questions with any specific plan, print it out and bring it with you and we'll see what we can do to help you get your documentation in order. You can bring your OSHA/HIPAA manual, whatever you want. This is a chance to get your documentation in order, then all you have to do later is keep it up.
